

Newbury Laboratories

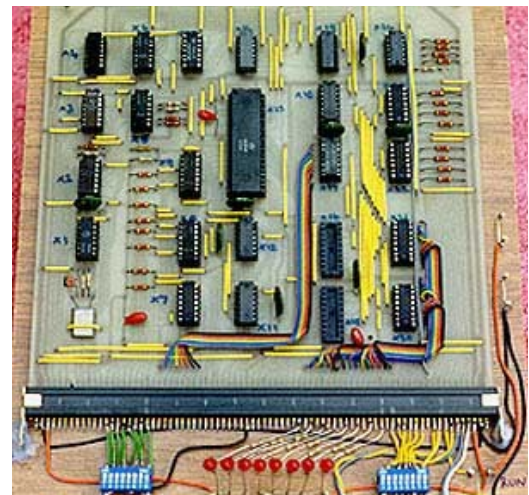

Terminals, Bears and Newbrains

1972 Company formed in Newbury, Berkshire, UK

1977 Announced a microprocessor controlled visual display unit and printer

Late 1977 or early **1978** : **Bear Systems** was incorporated into Newbury Labs, the **Bear 77-68** kit computer was renamed to the **NewBear 77-68**

In the late 1970s Sinclair Radionics had started research on another computer, **NewBrain**; when Sinclair Research was established to develop the ZX80 microcomputer, the **NewBrain** project was transferred to **Newbury Laboratories**

1981 The **NewBrain** was considered for the BBC microcomputer project but was not selected. Newbury Laboratories decided to concentrate on computer peripherals. **NewBrain** was sold to **Grundy Business Systems**

Bear / Newbear 77-68 --- *history of the letter heads ...*

June 1977 (Construction of 77-68 document published)
